

A Revolution in Calf Nutrition!

Evolution Nutrition
A good start to Life!

Evolution Nutrition

A good start to Life!

Quality product for raising heifer replacement and dairy beef calves. The Evolution Program begins with the Evolve line milk replacer and a balancer/extender which are paired with a special formulation of texturized feed to maximize performance. The Evolve products are a mixture of milk proteins, alternative proteins, plant extract, and fortified with Resynch (amino acid and derived antibodies). All of Evolve products are produced to grow calves quickly, healthy, and ready for the next stage in life! Evolve is designed to be fed 12 ounces of powder per 2 quart feedings allowing calves to be fed up to 3-4 times per day!

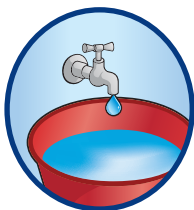

FEEDING PROGRAM

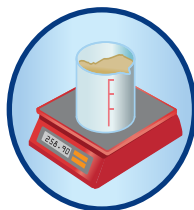

Age in days	Meals per day	Quart per meal
1	colostrum	Min. 6 qt. /24HR
2-14	2	2 quarts
15-35	3	2 quarts
36-49	2	2 quarts
