

FOR A GREAT START IN LIFE.

Happy Calf

A MID RANGE PROTEIN CALF MILK REPLACER FOR RAISING HEIFER OR DAIRY BEEF CALVES.

Happy Calf is an all milk protein formulation designed to provide a well balanced protein/energy matrix for the young calf. If your goal is to raise calves as herd replacements or dairy beef then *Happy Calf* is the best option for you. *Happy Calf* is designed to be fed at a concentration of 4-5 oz per quart (125-150 g/L) at up to 6 quarts per day.

The availability of clean fresh drinking water as part of the feeding program will encourage calf starter intake. Clean fresh water should be made available at all times during the milk replacer feeding period along with calf starter starting at 5 days of age in small quantities to ensure freshness.

COMPOSITION:

Whey
Whey protein concentrate
Animal Fat
Coconut oils
Vitamins and minerals

GUARANTEED ANALYSIS

Crude protein (min) 22%
Crude fat (min) 18%
Crude fibre (min) 0.2%

VITAMINS AND MINERALS

Vitamin A (min) 25,000 lb
Vitamin D (min) 5,000 lb
Vitamin E (min) 300 lb
Calcium..... (actual) 0.7%
Phosphorus (actual) 0.5%

FEEDING PROGRAM:

| Age in days | Meals per day | Quarts per meal |
|-------------|---------------|----------------------|
| 1-3 | colostrum | Min. 4 qt. / 24 hour |
| 4-10 | 3 | 1.75 quarts |
| 11-16 | 2 | 2.5 quarts |
| 17-22 | 2 | 3 quarts |
| 23-42 | 2 | 3 quarts |
| 43-49 | 1 | 3 quarts |

FEEDING PREPARATION:

- 1 Always use potable water and clean equipment
- 2 Measure one half the water required as hot water 130-135°F. Carefully weigh the correct amount of milk powder. Mix for 2 minutes.
- 3 Add the remaining water required as cold and mix for 1 minute. Feed at 113°F.
